To whom It may concern,

Chimcomplex Engineering JSC
Alexander Stambolyski No 205
1309 Sofia
Bulgaria

Confirmation of the contractual performance of service for design support, authorization / legalisation and supervision for H+E GmbH project in Bulgaria.

Project: Upgrade of existing WWTP Sviloccal-Pulp Plant, Svishtov- Engineering of New Biological Treatment Stage - Capacity 14400m³ / day

We hereby confirm that Chimcomplex Engineering JSC was subcontracted by H+E GmbH for our biological waste water treatment project for Svilocell, Bulgarian cellulose producer. The plant consists of a cooling stage, a double biological aerobic reactor, final sedimentation and sludge thickening.

Chimcomplex Engineering JSC had been responsible for the following scope of work:

- Engineering including geodetic survey, general layout, vertical planning, roads and sites engineering geological survey.
- Execution planning for the concrete base plates for the tanks –basins for: MBBR- diam.18m V=2000 m³, Activated sludge- diam 29m V=5000 m³, Degasation diam.7m V=200 m³, Final Sedimentation diam.40m V=5500 m³), foundations for equipment, pipe racks, concrete tanks for inlet and cooling water
- Execution planning for the technical buildings including building equipment, lightning protection, potable and firefighting system, domestic and rain sewerage system on site, fire safety, health and safety plan
- Authorization and legalization of the design part, including review, coordination and stamping by engineers with chartered certificates.
- Supervision during construction, civil works, electrical and mechanical assembly.

The quality of the service provided was excellent and the services were executed reliably.

This letter is issued as a reference letter only. It is not a waiver of rights by H+E GmbH, it shall have no impact on any contractual obligations of Chimcomplex Engineering JSC towards H+E GmbH and shall have no effect on the interpretation of the relevant contract between Chimcomplex Engineering JSC and H+E GmbH.

Yours faithfully

H+E GmbH

I.V. Horst Leltmann
Head of Engineering

i.V. Andreas Grahl
Project manager
